

Assigning a Test

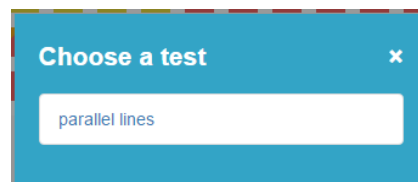

- To view a list of the tests you have created, go to your **Classes** tab, choose a class and click on **Tests**. A list of tests will appear in the center panel.

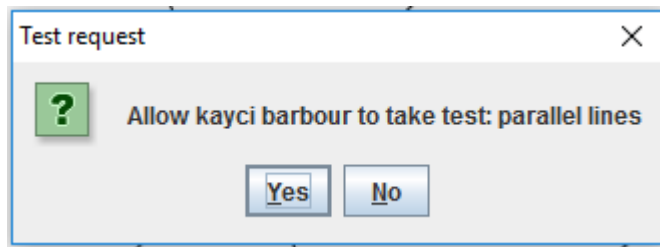

- In order to access the test, students must request it from you. A student may only request a test that has **Show** selected on the chart above.
- Students should click on the menu icon in the right corner of their screen to access **Request test**, then click on the name of the assigned test. *NOTE: Tests cannot be taken on mobile devices.*

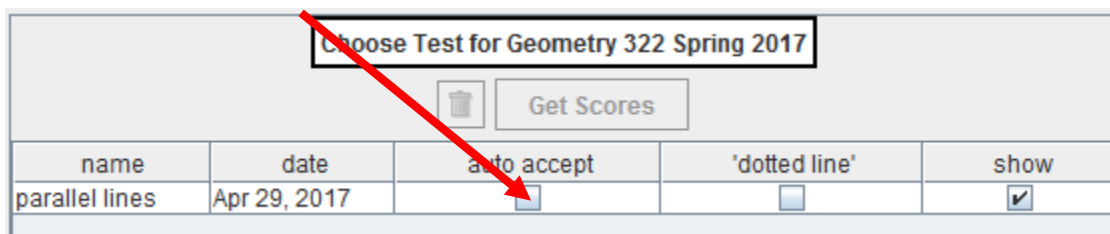

The student will be asked to choose their test:

4. A verification window will appear on the teacher's account when a student has requested a test. Clicking "Yes" will open the test on the student's screen.

Note: This verification window is a security feature that's useful when individual students need access to a test. **When a whole class is taking a test, click **Auto Accept** to speed up the verification process.**

Choose Test for Geometry 322 Spring 2017
